Subject: TDI Power Joins ANSI Electric Vehicle Standards Panel

Hackettstown, NJ – June 29, 2011

TDI Power has joined the Steering Committee for the Electric Vehicle Standards Panel recently founded by the American National Standards Institute (ANSI). The panel was assembled to provide the strategic roadmap that will define the standards for deployment of electric vehicles and associated infrastructure in the United States. TDI Power is also a member of the Vehicle Equipment Subcommittee.

TDI Power is currently working on several vehicle electrification programs covering consumer, commercial and military vehicles, and is uniquely qualified to support development of standards in this area.

TDI Power is a global manufacturer of Power Systems Solutions for the Industrial, Military/Aerospace, and Medical. We have a broad range of high technology power conversion products including DC and AC Power Systems, Power Supplies, Rectifiers, Converters and accessory equipment. Established in 1960, TDI is headquartered in New Jersey, USA, has over 600 employees and three facilities located throughout the world. For more information about TDI go to www.tdipower.com.
