

Features

- 19" EIA mounting dimensions
- 406mm overall front to back dimension
- Connects Four 2700W TDI Mercury power Modules
- 50Vdc maximum 200A output at –54Vdc
- Bulk or dual AC input

Specifications

INPUT

Input Voltage: 110/220Vac
Connectors: Qty 4, 20A IEC type

OUTPUT

Voltage: -48/-54vdc (module voltage)
Power: Max: 10,800W

Alarms

No module alarms extended

Controls

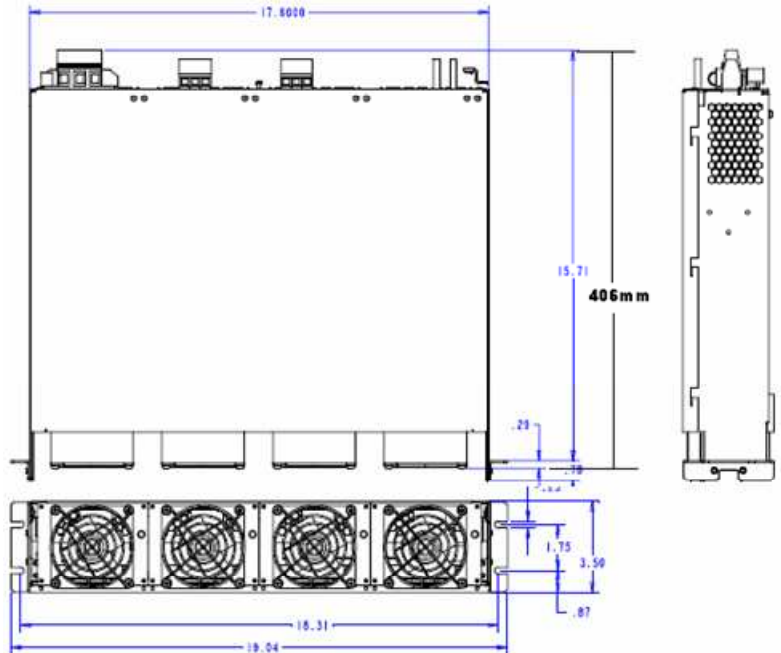

No controls

ENVIRONMENTAL

Normal operation: -20° to +55°C
Storage Temp: -40° to +85°C
Humidity: 0-95% non-condensing

MECHANICAL

Weight: ~10lbs
Module Dimensions:
Height 3.5" (89mm)
Width 19" mounting
Depth 16.82" (430mm)

Ordering Information

Part no.	Description
136876-60EAA01	19" mounting, reduced depth, 4X Mercury; 10,800W
