FOR IMMEDIATE RELEASE

Subject: Speaking Engagement at EPRI's Workshop on DC Power Production, Delivery and Use
Hackettstown, N.J. – May 30, 2006

Transistor Devices, Inc (TDI) will be speaking at **EPRI's workshop on DC Power Production, Delivery, and Use.** The event is scheduled for **June 1-2** at the **EPRI Washington DC office.** This workshop will bring together utility engineers and executives, product manufacturers, power systems engineers, designers, and researchers and experts from academia and EPRI to address opportunities and obstacles to DC power system deployment. Gary Mulcahy, Executive Vice President of TDI, will be speaking about optimizing uninterruptible power for modern data processing equipment.

Transistor Devices, Inc. (TDI) is a global supplier of Power Systems Solutions for the Computer/Networking, Telecommunications, Military/Aerospace, Medical and Industrial markets. We have the broadest range of high technology power conversion products available in the marketplace, including DC and AC Power Systems, Power Supplies, Rectifiers, Converters and accessory equipment.

Established in 1960, TDI is headquartered in New Jersey, has over 1000 employees and seven facilities located throughout the world. For more information about TDI go to www.tdipower.com.
