Subject: TDI to Consolidate US Facilities While Expanding China Facilities

Hackettstown, NJ – November 5, 2007

TDI is pleased to announce the next steps of its global operations strategy; consolidation of its Cedar Knolls and Hackettstown facilities and expansion of its China facility.

“These two strategies now position TDI to offer our customers the best of U.S. engineering and product support combined with Asian manufacturing for excellent economy,” stated Robert Smolinski, CEO & COO.

Our China operation has expanded to 96,000 sq. ft. and will offer increased economies of scale and additional manufacturing capacity. We are committed to maintaining our engineering development in the U.S. while moving some of our high volume manufacturing to our newly expanded China facility. The 150,000 sq. ft. headquarters facility in Hackettstown will accommodate over 400 employees.

There will be no interruption of product lines and schedules during this change. We have in place an operations plan that will provide for a smooth and seamless transition.

Established in 1960, TDI is headquartered in New Jersey, has over 1000 employees and five facilities located throughout the world. TDI offers the broadest range of high technology power conversion products available on the market today. TDI manufactures highly reliable OEM supplies and OEM Integrated Power system solutions that typically include converters (AC/DC, DC/DC or multi-output) combined with batteries and controllers. TDI's products solve customer power issues by delivering engineering solutions incorporating high-level electromechanical and thermal management for OEM systems. TDI's target markets include Computer/Networking, Telecommunications, Military/In-Flight Entertainment, Medical and Industrial markets. For more information about TDI go to www.tdipower.com.
