

**Transistor Devices
Booth #4462
Orange County Convention Center
Orlando, Florida
March 27-29**

Transistor Devices Inc. (TDI) will be exhibiting at the CTIA Wireless show at the Orange County Convention Center. CTIA's WIRELESS show is the #1 ranked and fastest growing wireless show in North America, representing the most dynamic segments of the telecom industry: wireless communications, Internet, computing and mobile data.

Designed with the wireless industry in mind, TDI will be displaying its **Environmentally Sealed Power Modules, Remote Power Vaults and Modular Power Solutions** for System Integrators. These outdoor enclosures provide DC Plant Power and Battery back-up for communications networks. The fully sealed enclosures provide battery back-up, monitoring and alarm capabilities while mounted to a pole, wall or pad.

System Integrators will be able to select modular power solutions consisting of **AC-DC rectifiers, DC-DC converters, DC-AC inverters**, associated shelves, power distribution and integrated controllers for a variety of applications.

- A Platinum Pass is a **complimentary guest invitation** that allows customers or potential clients to obtain a complimentary exhibit floor pass for CTIA WIRELESS 2007.
- The pass allows entrance into the exhibit floor and keynote sessions for all three days - March 27-29, 2007 - once the registration form for an "Exhibits Only" Attendee Badge is completed
- Go to <http://www.ctia.org/ctiashow/freepass/> and enter **FL** when prompted for the Pass Code.
- You must then complete the registration form by **Friday, March 23, 2007, Midnight, Pacific** to receive an "Exhibits Only" Attendee Badge.
